If you will need accommodations for placement inventories (such as extended time) at Orientation, or if you have any questions about services for students with disabilities (including learning disabilities or AD/HD), please call the Director of Academic Development, Linda Pizzi.

Also, call our office to make an appointment to finalize all accommodation requests for Fall 2011. It is best to meet at least two weeks before classes begin. (Classes begin on Aug. 31, 2011.)

In addition, if you have special needs for which special assistance from the Student Health Center or Counseling Center would be of value, appointments can be set up to meet the appropriate staff.

PLEASE NOTE:

To receive accommodations, students must provide educational or medical documentation that specifies the required accommodations. Individual Educational Plans (IEPs) or 504 Plans from a student's high school or previous college are not accepted for this purpose. Testing documentation should be no more than three years old.
