

## JUAN DUQUE

**Juan Duque** was elected to the Board in 2024. He graduated from the University of Maryland with a BS in Psychology and received his Masters/PhD from the University of Nebraska in Psychology (Neuroscience and Behavior). His interests and experience have always been multidisciplinary, including biology and psychology. Juan teaches primarily Intro to Psych, Learning and Cognition, and Behavioral Neuroscience.

In addition to teaching, Juan manages Arcadia's Rat Lab and has an active research agenda. His research interests are in understanding the when/how/why of generosity. He has taught ten semesters at Arcadia, authored five publications with another expected in Spring 2024; mentored six senior theses (and much more undergraduate research) involving behavioral experiments with rodents and online survey research. Juan also spearheaded development and passage of a new Psychology Curriculum and has been actively involved in service including IACUC, Curriculum Assessment Team (CAT), Restarting Research Committee (during COVID), Academic Standing, and many job search committees.
